CANADA'S QUARREL WITH URUGUAY.

With far away Uruguay-one of the South American Republics - Canada has a quirrel which, it would appear, can be solved only by a British warship. In the prisons of the little republic Canadians are languishing. Their presence there is unfust; their sentences, even if hey happened to deserve punishment, are preposterously long. From their confinement Uruguay has been ordered to release them, but up to the prese t moment the response

has not been fay rable. For some years enterprising Canadians have presecuted the scaling business in the Southern seas, ind have made a good living out of the catch. The seals are captured inopen ocean, and they are not the property of any State or of any individual or company. Before entering into the business these adventurous men communicated with our own Government with a view to assuring themselves that they were on firm 1376 ground. They saked if there was any objection and if hey needed a license. The reply they received was correct in every

particular. The Ottawa people said : IN CLACE KID, BOX CALF, and Vancouver under Haris award. No auce licences are necessary in Atlantic or Pacific south of 35th dogree north let-

Acting upon this advice, the sealers went out on their enterprise, and made their catches. They shipped from various southern ports to Loudon, and were establishing a profitable business.

Meanwhite, persons having sealing: rights from the Republic of Uruguay witnessed the progress of the Canadian COTTAM & Co., andertaking with jealousy and sought to destroy it. They enlisted their little Government in the campaign against the Canadians, and finally succeeded in securing 1174 the capture of the Canadian schooner Agnes Donahos, on the charge of scaling without Uruguayan authority. Out in the ocean, hundreds of miles distant from land. the Canadian scaler was soized by a Uruguayan cruiser. Other vessels carrying the BUILDINGS (opposite Messes Gaupp | Donahos was the only one caught. Into port was the Canadian vessel triumphantly towed, with the captain and crew prisoners. and all the contents liable to confiscation. This occurred in Ma h.

It appears that when the Cauadian schooner was brought to Monte Video, the OND FLOOR of No. 6, DES VŒUX Government there could find no law cover-ROAD CENTRAL, now occupied by ing the charges against it. As a matter of SPACIOUS GODOWNS, formerly fact, the vessel had been illegally seized. known as McGreece Barracks, fronting But, fortunately for the Government, the Legislaturo was in session, and it was possible to push legislation through creating an offence to fit the case. For two months the captain-Capt. Ryan-remained in Inw. contravention of which might be charged against him. This was a cool piece of business. The idea of detaining a person while a statute was passed, that he THE HONGKONG LAND INVEST. might be tried under it, was at least novel. In May, Capt. Ryan and his companions 1697 were put on trial for violation of the Uruguayan law, and it was found by the courts, for the law had been made to catch the Canadian—that they were guilty. To prison the captain was therafore consigued for three years, while the mate was sentenced to one year and the crew to six months each. The ship and contents were

confiscated. The injustice to the Canadians is apparent on the face of it. The passage of a law to make them liable to punish-THE HONGKONG LAND INVEST. ment shows that they were guilty of no offence when they were captured. It is impossible to vio ate a law that has not been passed. On this ground alone Urugusy should releases the prisoners and indemnify them. We would not allow any person, however humble, to be imprisoned when he has been

guilty of no wrong, and the principle must be recognized by the Southern Republic. That country can do as it pleases with reference to its own citizens, but, British subjects are different. They must have justice. The expost facto laws, however, does not altogother rule the case. The Uruguayans really arrested the Canadians when they had been guilty of no errong. The open sed is free to the trade and industry of the world, and when Canadians prosecute their calling there Uruguay cannot arrest them for so doing.

of the Uruguayan coast they were trespassing on the preserves of the republic, and were liable to capture. But if they were on the open sea-and it is claimed that such was the case - no country had the right to interfere with them. Candada can prevent Ashing by United States fishermen withinthree miles of the score. The United States can capture Canadians scaling three miles of the coast of that country. It is universally recognized that the na ion has jurisdiction; within the three mile limit, unless by treaty the jurisdiction is extended. In the case of Canada and the United States with the weals there is an arrangement which places restrictions other than those of a general character upon the scalers of both countries. But Uruguay is not a party to this convention. As a-matter of fact, the Uruguayan Government has exceeded its power, and the Canadians are unjustly detained, while their vessel is improperty confiscated. Great Britain is considering the despatch

of a war vessel to Uruguay to insist upon justice. As the republic refuses to act, on the assumption that nothing will be done to compel her to do so, such a demonstration seems to be necessary is order to bring that country to a realization of its duties to other countries. But a peacoful solution would be better. All that is needed is an abandonment of the claim to the right to interfere with Canadians on the sea, and the release of Capt. Ryan and his crew, with adequate indemnities for the mistake that has been made.-Mail and Empire.

WOMEN CHAINMAKERS.

The centre of the chainmaking industry by night is bright with the glare of the furnace; by day it is shrouded with smoke and gloom flecked with mud. Here and there men or women are chalumaking in their own particular sheds, in comparative solitude; but most of the work is done in factories, and in some of these workshops there are five or six women at the anvils. Their toneuss go in rough rhythm to the best of the hammers and clink of the chains they are forging; but there is no genuine mirth in their din. However womanly they may be at heart, appearances are against them (says a stained, 'ill-fed, and haggard, they are the antithesis of the society beauties who ride in Hyde Park, or grace reception chainmaker of the Black Country stands . long at the forge. The bell ws blowers, both children and old men and women, are worse paid than the female chainmakers. They tu n the wheels or pull the bellows beams at the rough rate of threepence per day, making, nevertholess, a substantial profit for the forge owners, who do not scruple to charge heavily for the 'breeze' or tuel indispensable to

THE PROBLEM OF EDUCATION.

Brain Fag in Children.

Тонром. July 21,

Dr. Theodore, Hyslop, Resident Physician of the Roya Bethlem Hospital, read an interesting paper before the Congress of the Royal Institute of Public Health yesterday on the subject of Brain Fag in Children.

Montal hygience, he said, dealing as it dld with the laws of mental health, was as scion e but yet in its infancy. The evidence of the dispreportionate increase in our canb to that of the general populat on, and the prevalence of neutotic diseases, made it appear that the malady of the age was that of neurotism mainly due to brain fag, which was brought about larvely by the attempt to cultivate soil which was incapable of cultivation. As the educational ladder-extending as it did from the Board Building Materials. All communications 2182 school to the University curriculum-beeame more difficult to scale so the residuum of failures became more and more noticeable in the words of our asylums.

The work of rescuing the child from the cutter, if it but served to qualify for the asylum was a poor policy, and an enforced education at the early ages of three or four years frequently involved the sacrifice of mental health, and was, therefore, unphysiological and of faulty economic value. So damaging to the mental development and stability of the mind was the enforcement to brain eff rt at so early an age that the methods now demanded by Legislature were surely and certainly aiding in the

brain suicide of our race. This was, indeed, a brain age; but was also an age when not only were the ratepayers penny wise and pound feelish, but their unfortunate progeny were only too frequently months learned and years demented. Learning by rote was useless and even deleterious. It was of false economic value in the development of the stability of the memory, and of the mind. It was one of the most victors of the causes of brain fag, and was largely due to competition as determined by our vainglorious system of merely accumulating knowledge. The greatest caution should be exercised in placing facts in the memory, and no fact should be isolated GENERAL STOREKEEPERS, from the reasoning faculty, which was the very keel upon which our mental ship was built. All minds that were made the mere receptacles for knowledge were jerry-built, and unable to withstand the tests of strain

and Precocioneness, as determined by an abnormal physiological retentiveness of memory, was one of the most common of £3,688,929 5 0 all pitfalls, and premature degeneration The Accountilated Funds of the Fire and served to explain many of the carly Life Departments are free from liability in victories as students, but later failures as men. Brain fag was aided by a deplerable CONTRACTORS & HOUSEBUILDERS, SHEWAN, TOMES & CO., waste of effort. An ideal system of education should rest, firstly, in laying bare the Dartment and Admiralty. We keep

defects and limitations of the special senses, and then a botter direction of the efforts at Reasonable Prices. for special avocations. The following resolution was prefesed - by Professor Simpson, seconded, and unanimously carried :--

The Preventive Medicine Section of the Congress of the Royal Institute of Public Health 1eso ves that present hours of sleep allowed to boys under the age of 16 years in some public schools are too short for enabling them to attain the highest physical H. GRAVEL AND URINARY DIS-

ORDERS. SUFFERED 15 YEARS.

CLOVELLY, perhaps the most quaint and charming spot in beautiful

Dovon, is the birthplace of Miss Mary Bond, who now lives at 1, Ivy Cottages, Meddon St., Bideford, England. Miss Bond's father is well known in Olovelly, where he lived for 70 years. On June 4th, 1902, Miss Bond said :- My grandfather died of kidney complaint; and when fifteen years ago, I noticed unmistakable sign of kidney trouble, I was naturally worried and anxious, because I knew the seriousness of it. The first sign was a dull, burning pain in the back, which became sharp and cut-ting whenever I stooped. I also noticed that the urine was unnatural, and I was

troubled with gravel. . 'I got worse and worse as time went on, and nothing I tried relieved me. At last I was so bad I didn't know went to do; I could hardly move without pain, and I bogan to fear I should nover be cured. Lest Christmas my brother, a sea cap-tain, sent me three boxes of Doan's Back-

ache Kidney Pills as a Christmas present, and I gave the medicine a thorough trial, I felt a good deal better after I had finished the medicine, taking fourteen boxes in all. Now I am quite another woman ; I feel so much stronger and better, and there is no sign of gravel. I believe I have been cured by Doan's Pills, and I shall always be pleased to speak about them to others."

Our representative visited Miss Bond or April 23rd, 1904 (1) years after her cure), and was heartily welcomed . I am still in good bealth,' Miss Bond declared, 'and I have found my cure to be lasting. 2249 don't know what I should have done without Doan's Pills and I've often spoken about them to others.'

Donn's Backathe Kidney Pills should be used immediately there is any such sign of kidney di ease as Backache, Dizzy Spolls, Aching Pain in the Loine, Water Troubles, Gravel, Sallow Skin, Rheumatle Pains, Heart Irregularity, Schoplessness, Irritability, Cramp, Spots before the Eyes, Watery Swellings in the Ankles or beneath the Eyes, Stiffness of the Joints, Lumbago, Dazed Feeling, Bad Circulation of the Blood (as shown by cold hands and feet). Dom's Backache Kidney Pills antiseptically cleanse the kidneys, ursters and bladder, and assist the kidneys in their Oppics:- No. 64, DES VŒUX ROAD great work of filtering the blood. They are purely vegetable, and reliable for mon and women, young and old. But be care-

ful to get the genuine Doan's Pills. chemists and medicine-dealers, or direct from the proprietors, the Foster-McClellan Co., 8, Wells Street, Oxford Street, London, England, post free on receipt of price.

THE NEW FRENCH REMEDY This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord,

Kortan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind and surpasses everything hitherto employed. in a remarkably short time, eiten a few days only, cemoves all discharges from the urinary organs, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases,

THERAPION No. 2 for impurity of the blood, scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every polsonous matter from the body.

THERAPION No. 3 ness, and all the distressing consequences of early error, excess, residence in hot, unbralthy climates, trength and vigour to the debilitated.

THERAPION is sold by all Chemists and Merchants throughout the World.

Price in England 2/9 & 4/6. In ordering, state which of the threenumbers is required, and observe

which of the three numbers is required, and observe above Trade Mark, which is a fac-simile of word THERAMON' as it appears on Editish Government.
